DETAILED ACTION

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Charles Griggers (Reg. No. 47,283) on July 07, 2006.

The application has been amended as follows:

Regarding claim 1, (Currently Amended) A remote, self-contained communications antenna apparatus for establishing wireless communications, comprising:

equipment for

transceiving communication signals between said equipment and a disconnected cell site that has been disconnected from its cellular system, and

transceiving communication signals between said equipment and a communications network; and

a mast for extending and collapsing an antenna; and

communication link means for setting up communication between the remote, self-contained communications antenna apparatus and the disconnected cell site.

Regarding claim 35, (Currently Amended) A method for establishing wireless communications, comprising:

transceiving wireless communication signals between a wireless device and a disconnected cell site that has been disconnected from its cellular system;
and

transceiving communication signals between said disconnected cell site and a remote, self-contained communications antenna apparatus with a mast for extending and collapsing an antenna; and

transceiving communication signals between said remote, self-contained communications antenna apparatus and a communications network; wherein communication between the remote, self-contained communications antenna apparatus and the disconnected cell site is set up via a communication link means.

Allowable Subject Matter

3. The following is a statement of reasons for the indication of allowable subject matter:

Regarding claims 1 and 35, the prior arts of record, in combination or individual, fail to show or make it obvious a remote, self-contained communications antenna apparatus having communication link means for setting up communication between the remote, self-contained communications antenna apparatus and the
